

What is Olmsted Naturally?

connecting parks & people

Olmsted Naturally is a committee composed of Olmsted employees spanning several professions within the Conservancy whom all share a common goal; to help make the Olmsted Parks in the City of Buffalo the greenest parks system in the nation. The Olmsted Naturally committee is dedicated to enhancing the Olmsted Parks through sustainable practices and projects. Sustainability starts with a few fundamental practices that this committee has identified, researched and begun to implement;

- Natural Restoration
- Native Plantings
- Invasive Plant Control/Removal
- Maintained Meadow Areas (MMA)
- Composting (Cold and Hot)
- Pesticides and Fertilizer Alternatives
- Compost Teas
